Utah In Review 1983

Despite the fact that state expenditures exceeded state revenues by $121 million last year, Utah was able to conclude the 1982-83 fiscal year with a small balance in the general fund. This was accomplished by depleting existing reserves and transferring unexpended balances from special accounts to cover other operating expenditures. Some of these funds may have to be replaced at a later time when more adequate financing is available.

Adding to Utah's financial problems were floods and mudslides that plagued many parts of the state last year. The 1983 Utah Legislature, meeting in special session, enacted a "temporary" sales tax increase of ½% to help pay for the damage resulting from these acts of nature.

As Utah began to emerge from the recent recession, it was faced with demands for increased funding from education groups and other public employees. These groups contended that they had been provided with only minimal salary increases in 1983 when the state was experiencing financial hardships. While some of these demands were compromised by the 1984 Budget Session, tax increases had to be enacted to pay for the higher costs incurred. Among the tax increases passed this year were the following:

. The "temporary" sales tax increase of ½% passed in 1983 and scheduled to expire on September 30,1984, was made permanent. This will add $28.5 million in revenue during the 1984-85 fiscal year and more than $57 million over the course of a full year.

. A speed up in sales tax collections from businesses will produce a one-time windfall of $40 million.

. A 25% increase in the corporate franchise (income) tax rate will produce an added $11 million per year.

. A doubling of the severance tax on oil and gas production will bring in an additional $18 million per year.

. The state motor fuel tax rate was raised from 11 cents per gallon to 14 cents per gallon and will produce $22 million per year in added revenue.

Utah resolved some of the problems facing its unemployment program last year by enacting higher unemployment taxes and scaling back on benefits. In addition, the state will switch to a charge-back type of experience rating in 1985. Under this system, an employer's tax rate will be determined mainly by the benefits that are paid to former employees. The change probably will result in lower taxes for employers with a low rate of turnover and higher taxes for seasonal employers and those with a high rate of employee turnover.

One bright spot in Utah's financial picture has been the surplus that developed in the state retirement fund during each of the past two years. Because the investment yield from the retirement fund has been greater than the actuarial assumptions that were used to establish the contribution rates, a surplus was being generated in the fund. This allowed the 1983 Legislature to reduce the contribution rates by 4.9% (2.45% as the employer share and 2.45% as the employee share) without jeopardizing any benefit commitments. The total contribution rate was trimmed an additional 1% by the 1984 Budget Session. Thus, the total retirement contribution which was 17.9% in 1982-83 will be 12% beginning with the 1984-85 fiscal year.

Most state and local revenue in Utah is derived from three main taxes--the sales tax, the property tax, and the individual income tax. Last year, these three taxes accounted for 78% of all state and local tax revenue collected in the state and 88% of the tax revenue not specifically earmarked for some special purpose. The property tax currently is used by local units of government (counties, municipalities, school districts, and special districts), while the income taxes used by the state, and the sales tax is employed both by local units and the state.

Property taxes levied by local units of government in Utah during 1983 amounted to $535 million. Combined receipts from state and local sales taxes, on the other hand, totaled $485 million, and the state individual income tax produced $346 million in Utah last year.

Education, social services, and transportation account for 83% of all state expenditures and 75% of combined state and local spending in Utah. Education, of course, continues to be the number one area of state spending. This is true not only in Utah but also in most states of the nation. During the 1981-82 fiscal year, educational expenditures amounted to $1,264,700,000, or 47.5% of all general expenditures by state and local governments in Utah.

Fall enrollments in the Utah public schools rose from 369,338 in 1982 to 378,208 in 1983, an increase of 8,870 pupils during the year. This change is far below what originally had been anticipated. A major factor for the slowdown in the enrollment growth rate in 1983 was a change made by the 1982 Utah Legislature in the entrance date for kindergarten pupils. The change had the effect of reducing the number of kindergarten pupils by approximately 4,000, and will result in substantial cost savings to the state.

Social service (welfare, corrections, mental health, family services, health, unemployment benefits, etc.) is another spending area that has been growing very rapidly in Utah during recent years. State expenditures for these items last year totaled $556 million, or about 29.4% of all state spending. Social service expenditures in Utah during 1982-83 rose by $107 million or 24%.

1992	2,153,000		

NOTE: Above projections of Utah's population were made by UTAH FOUNDATION and are based on a U.S. Bureau of the Census study, Provisional Projections of the Population of States, by Age and by Sex; 1980 to 2000, Series P-25 No. 937, issued in August, 1983. Projections in the study for Utah, however, were scaled back to reflect the actual experiences through 1983. As a result, the projections shown above are slightly lower than those contained in the Census Bureau study.

NOTE: Detail may not add to totals because of rounding.
* Because of the delay in remitting the sales tax to the State Tax Commission, the data actually reflect business operations during the fiscal year ended June 30, 1983.
** Net local sales tax collections are amounts remitted to local units after deduction of 2.5% for administrative expenses.
*** Includes "Outside Above Municipalities" for each of the counties except Morgan County. All of Morgan County is included because there are no local unit collections.
# Includes or reflects use tax collections.

* Excludes expenditures for administration and for social services.

** Beginning in January, 1974, money payments for old-age assistance, aid to the blind, and aid to the disabled were paid directly by the Federal Social Security Office.

Prior to fiscal 1962, medical assistance expenditures are not shown separately. Such medical expenditures are included in program expenditures for these earlier years.

Prepared by UTAH FOUNDATION from reports of the Utah Department of Social Services and Utah Department of Health.

NOTE: Indicated assessment levels after 1978 are based on values as rolled back to January 1, 1978. According to the roll-back factors applied by the State Tax Commission, the 1978 value of property in Utah was equal to 67.56% of the 1983 value.

Because of the ratification of Proposition I in 1982 and the enactment of implementing legislation, the legal ratio of assessment in Utah is 15% for residential property and 20% for other property classes. Thus a breakdown for residential, commercial and unimproved property classes are shown beginning in 1983.

* Assessment levels shown are for the previous year as no new ratios were published for the indicated counties. The State Tax Commission study notes that these counties were in the process of being reappraised and "any attempt to conduct a meaningful ratio analysis would have been futile."

Prepared by UTAH FOUNDATION from Assessment Sales Ratio studies prepared by the Utah State Tax Commission for the various years.

* Because of the overlapping boundaries of the various special districts in the state, more than one levy may apply within a municipality or school district. For example, 23 different overall mill levies are applied within Ogden City and 13 different levies are found in Salt Lake City. Actually, there are 158 different taxing areas in Salt Lake County, 214 in Weber County, and 64 in Davis County. In the preceding county tabulations, the different taxing areas are designated by one or more code letters following the name of the municipality or school district. Each code letter refers to some special taxing district which imposes or is authorized to impose a levy within the district. Thus, "Weber Schools - A,B,D,J,K,ee refers to the taxing area in the Weber School District (outside of any incorporated city or town) which is in the Weber Basin Water District (A), Central Weber Sewer District (B), Ben Lomond Cemetery District (D), the Bona Vista Water District (J), the Weber County Mosquito District (K), and Weber County Fire Protection District #4 (ee). Of course, in addition to these taxing district's levies, the countywide levies for schools and county purposes are applied in the described taxing area.

a/ Due to inadequate local reporting no breakdown of assessed value within area is available.

Utah In Review 1984

After several years of serious financial problems, Utah state finances improved dramatically during the 1983-84 fiscal year. Not only did the state meet all legislative commitments, but it also was able to conclude the fiscal year with a general fund surplus of $81.7 million. By contrast, Utah was forced to make across-the-board appropriation cuts in 1982-83, 1980-81, and 1979-80 in order to maintain a balanced budget for those years.

Tax collection trends remained strong during the early months of the 1984-85 fiscal year. Both the sales tax and individual income tax receipts were well ahead of budgeted estimates during the first half of the year. As a result, it is likely that the budget surplus will continue to grow during the current fiscal year.

The improved condition of Utah state finances resulted mainly from the strong economic recovery experienced during the past year. When the Utah Legislature met in early 1984, the outlook was generally pessimistic. As a result, the Legislature enacted a number of tax increases, including the following:

. The "temporary" sales tax increase of ½% passed in 1983 and scheduled to expire on September 30, 1984, was made permanent.

. Sales tax collections were accelerated by requiring larger businesses to remit 90% of their April and May sales tax receipts to the state by June 15th instead of with their regular quarterly return on July 30th.

. The severance tax on oil and gas production was doubled from 2% to 4%.

. The corporate franchise (income) tax rate was raised 25% from 4% to 5%.

. The state motor fuel tax rate was increased from 11 cents per gallon to 14 cents per gallon.

Because of the generally good condition of state finances, no major tax hikes were imposed by the 1985 Utah Legislature. The Legislature, however, did boost hunting and fishing fees and add a $3 surcharge to moving traffic violation fines. Although an increase in the state cigarette tax was approved, it will not become effective unless the federal cigarette tax is reduced a corresponding amount.

Most state and local revenue in Utah is derived from three main tax sources--the sales tax, the property tax, and the individual income tax. During the 1984 fiscal year, these three tax sources accounted for $1,579 million, or 77% of all state and local tax revenue collected in the state and 88% of the tax revenue that is not specifically earmarked for some special purpose.

The sales tax, which is levied by both the state and local units of government (counties and municipalities), produced $656.5 million in Utah last year. Property taxes imposed by local units of government (counties, municipalities, school districts, and special districts) totaled $535.3 million in fiscal 1984. State individual income tax collections during the 1984 fiscal year amounted to $387.3 million. Although the income tax is imposed by the state, revenue from the tax is used to provide state aid to local school districts.

Education continued to receive major emphasis in Utah. The 1985 Utah Legislature increased educational funding by $122 million or 10.7%. Total educational expenditures authorized for the 1985-86 fiscal year amounted to $1,260,620,000. Of this sum, $801 million went for public education, $327 millior for higher education, $12 million for school building aid, and $121 million for other education purposes.

School enrollments in Utah are continuing to grow, but there are some signs that the rate of increase is beginning to slow down. Although fall enrollments in Utah public schools rose by 11,933 pupils in 1984, the increase was far below what had been expected. Birth rates in Utah are beginning to decline and the state has been experiencing some out migration during the past two years.

The big problems facing Utah in 1985 appear to be education, flooding (especially around the Great Salt Lake), and corrections. A substantial effort was made by the 1985 Utah Legislature to deal with two of these problems-education and flooding.

Education, of course, continues to be the number one area of public expenditure in Utah. During the 1982-83 fiscal year, educational expenditures accounted for 45.2% of all general expenditures by state and local governments in Utah. Education, social services, and transportation are responsible for 77% of all state expenditures and 71% of combined state and local spending in Utah.

Utah has one of the lowest per capita incomes in the nation. During 1983, Utah's per capita income of $8,993 was 48th among the 50 states and was 23% below the U.S. average of $11,658. A major factor in Utah's low per capita income is the large number of nonincome-producing children residing in the state. Utah has more children in relation to its adult population than any other state in the nation.

A slowdown in the inflation rate during recent years could help moderate future expenditure increases in Utah. Many public expenditure programs are tied directly or indirectly to inflation. During the past three years, the annual inflation rate has averaged about 4%. This compares with an average increase of almost 12% in the immediately preceding three-year period.

* Because of the delay in remitting the sales tax to the State Tax Commission, the data actually reflect business operations during the fiscal year ended June 30, 1983.

** Net local sales tax collections are amounts remitted to local units after deduction of 2.5% for administrative expenses.

Includes or reflects use tax collections.

NOTE: Assessment levels for 1984 in above table are based on 80% of the current value as indicated by comparable sales or cost appraisal of properties. This 20% discount represents an estimate of the fees, closing costs, and other expenses that would reduce the actual money value to the seller. For practical purposes, therefore, the actual legal rate of assessment in 1984 is 12% (80% of 15%) for primary residential property and 16% (80% of 20%) for other local property classes (industrial, commercial, vacant, and secondary residential). Assessment levels for the different property classes in the various counties should also be reduced by 20% to arrive at the average assessment-sales ratio.

* Assessment levels shown are for the previous year as no new ratios were published for the indicated counties.

Prepared by UTAH FOUNDATION from Assessment-Sales Ratio studies compiled by the Utah State Tax Commission for the various years.

* Because of the overlapping boundaries of the various special districts in the state, more than one levy may apply within a municipality or school district. For example, 24 different overall mill levies are applied within Ogden City and 15 different levies are found in Salt Lake City. Actually, there are 152 different taxing areas in Salt Lake County, 188 in Weber County, and 68 in Davis County. In the preceding county tabulations, the different taxing areas are designated by one or more code letters following the name of the municipality or school district. Each code letter refers to some special taxing district which imposes or is authorized to impose a levy within the district. Thus, "Weber Schools - A,B,D,J,K,ee refers to the taxing area in the Weber School District (outside of any incorporated city or town) which is in the Weber Basin Water District (A), Central Weber Sewer District (B), Ben Lomond Cemetery District (D), the Bona Vista Water District (J), the Weber County Mosquito District (K), and Weber County Fire Protection District #4 (ee). Of course, in addition to these taxing district's levies, the countywide levies for schools and county purposes are applied in the described taxing area.

a/ Due to inadequate local reporting no breakdown of assessed value within area is available.

b/ Due to inadequate local reporting, state assessment only is shown.
